ADMIN

CLIENT DEMO GUIDE

Live demo, step by step

Kaun sa module kis order mein dikhana hai, har screen par kya bolna hai, kaun sa demo data daalna hai — aur har entry se kahan kya badalta hai.

DATE	PANEL	DURATION
19 October 2026	**Rolex Admin v1.0.7**	**~40 minutes**

Presenter ke liye internal guide — isme koi password nahi likha hai.

SHURUAAT

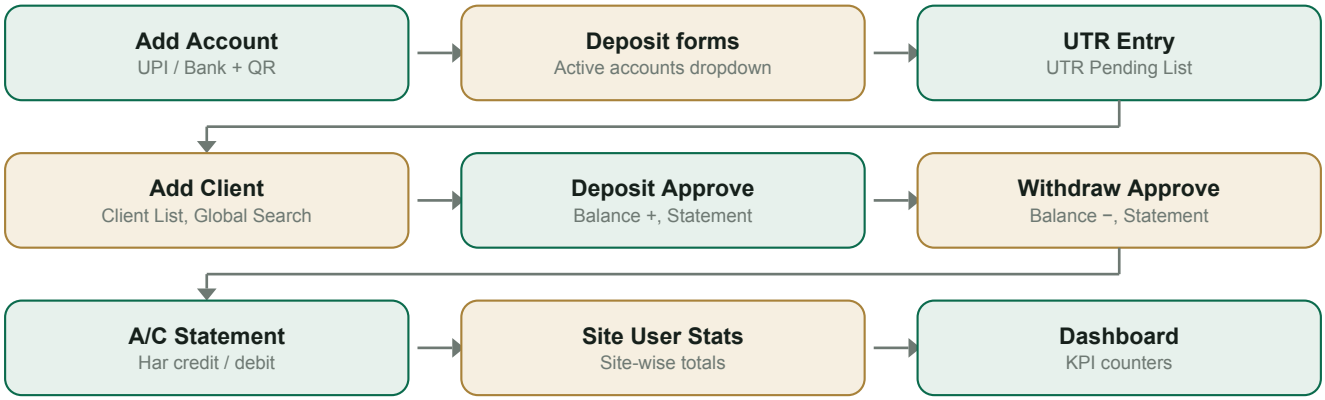

Demo ka plan ek nazar mein

Demo ek kahani ki tarah chalayein: ek naya payment account banta hai, ek naya client aata hai, uske paise aate hain, wo withdrawal leta hai — aur har kadam par dikhayein ki baaki screens apne aap update ho jaati hain. Yeh order follow karein:

#	Module	Sidebar	Main point	Min
1	Login + 2FA	—	Secure login, OTP verification	2
2	Dashboard	Dashboard	Poore business ka live summary	3
3	Payment Accounts	Accounts	UPI/Bank account + QR upload with preview	5
4	Clients	Clients	Naya client banana, filters	4
5	Global Search	Global search	Kisi bhi client ko dhoondhna, balance credit	4
6	Deposit & UTR	Deposit	UTR entry, approve/reject, history	7
7	Withdraw	Withdraw	Payout request, approve with UTR, reject	5
8	A/C Statement	A/C Statement	Har paise ka ledger, filter, CSV export	3
9	Site User Stats	Site user stats	Site-wise performance, date range	2
10	Extra Users	Extra Users	Operators banana, suspend/activate	3
11	Security	Change Password	Password change, 2FA	1

Data kahan se kahan jaata hai

Client ko yeh map dikha kar samjhayein ki ek entry kitni jagah apne aap reflect hoti hai:

Action	Client balance	A/C Statement	Dashboard	Site stats
Deposit Approve	+ amount	Credit row	Yes	Yes
Deposit Reject	—	—	Rejected +	Yes
Withdraw request	— (approve tak nahi katta)	—	Pending +	—
Withdraw Approve	− amount	Debit row	Yes	Yes
Withdraw Reject / Cancel	—	—	Yes	Reject: yes, Cancel: no
Global Search balance credit/debit	+ / −	Credit/Debit row	—	—
Add Client (Clients page)	0 se start	—	Clients +1	Total Clients +1

DEMO SE PEHLE

10 minute ki taiyari

Meeting se pehle yeh sab check kar lein, taaki demo ke beech koi rukawat na aaye.

Kaam	Kaise	Kyun
Backend chalu karein	Terminal: `cd backend` → `python run.py` (port 8001)	Saara data yahin se aata hai
Frontend chalu karein	Terminal: `cd frontend` → `npm run dev` → `localhost:5173`	Panel isi URL par khulega
Login check	MASTAN99M (2FA ke saath) aur admin — dono se ek baar login karke dekh lein	Passwords is PDF mein nahi hain
2 pending deposits banayein	Neeche diye gaye tarike se (Step 6 ke liye zaroori)	Panel mein deposit banane ka button nahi hai — deposit client ki site se aata hai
QR image ready rakhein	Koi bhi UPI QR ki PNG/JPG (2 MB se kam) desktop par	Step 3 mein upload karna hai
Browser	Chrome, 100% zoom, full screen, light mode, Emerald (green) theme	Screens saaf dikhengi
Purana test data	E2ECLIENT01, E2E_OPERATOR, "E2E TESTER" account — inhe demo mein na kholein	Ye testing ke bache hue records hain

Pending deposits kaise banayein

Panel mein abhi koi Pending deposit nahi hai, isliye Approve/Reject dikhane ke liye 2 deposits pehle se bana lein. Yeh asal mein client ki site (Mastan365) se aate hain — demo mein bhi yahi bolein. Sabse aasaan: Claude se bolein "demo ke 2 pending deposits bana do". Ya khud Swagger se:

#	Swagger par	Body (JSON)
1	`localhost:8001/docs` → **POST /api/v1/deposits** → Try it out. **authorization** field mein `Bearer <token>` daalein (token: browser mein login ke baad DevTools → Application → Local Storage → accessToken).	`{"username": "MAYURSINH", "amount": 2500, "utr_number": "612345678911"}`
2	Same endpoint, dobara Execute	`{"username": "ASHUTOSH", "amount": 1500, "utr_number": "612345678912"}`

Tip

Demo shuru karne se pehle Deposit → Pending Deposits par dono deposits dikh rahe hain, yeh check kar lein. MAYURSINH ka balance abhi Rs. 22,000 hai — approve ke baad Rs. 24,500 ho jayega, client ko yahi dikhana hai.

LIVE DEMO

Step-by-step script

Har step mein: kya dikhana hai, kya bolna hai, kaun sa data daalna hai, aur us entry se kahan kya badlega.

1 Login + Two-step verification

Sidebar: Login page — 2 min

Kya dikhana hai

- Login page ka naya design — left mein brand panel, right mein form.
- **MASTAN99M** se login karein (is account par 2FA on hai) → **Two-step verification** screen khulegi.
- Authenticator ka 6-digit code daal kar **Verify & sign in** → upar beech mein *2FA Verified* message aayega.

Kya bolna hai

"Panel do level ki security ke saath aata hai — password ke baad Authenticator app ka OTP. Bina OTP ke koi bhi andar nahi aa sakta, chahe password leak bhi ho jaye."

Demo data — yahi values daalein

Field	Value	Note
Username	**MASTAN99M**	Super Master, 2FA on
Password	Aapka demo password	PDF mein nahi likha
Verification code	Authenticator / demo OTP	Demo code backend config (DEMO_OTP_CODE) mein set hai

Entry karne se kya hoga

Aap kya karte ho	Kya badalta hai	Kahan dikhega
Sahi password	OTP screen khulti hai (5 minute ka session)	/verify page
Sahi OTP	Login ho jaata hai	Sidebar, header mein 'Mastan Admin · Supermaster'
Galat OTP	Error message, login nahi hota	Same screen

Dhyan rakhein

- admin aur demo accounts par 2FA off hai — wo seedha Dashboard par jaate hain.

2 Dashboard

Sidebar: Dashboard — 3 min

Kya dikhana hai

- Quick Navigation cards — Clients, Deposit List, UTR Entry, Withdrawals, Bank Accounts, Global Search.
- Deposit & Payout Metrics — Total / Approved / Rejected deposits aur withdrawals, Pending Withdrawals ka **Approve** shortcut.
- Volume & Clearance Performance — deposit clearance % aur withdrawal disbursal %.
- Header: theme color picker, dark mode, notifications, profile menu (Change Password, Sign Out).

Kya bolna hai

"Subah login karte hi aapko poore business ki halat ek screen par mil jaati hai — kitna paisa aaya, kitna gaya, kya pending hai. Har card par click karke seedha us kaam par pahunch sakte hain."

Entry karne se kya hoga

Aap kya karte ho	Kya badalta hai	Kahan dikhega
Deposit approve (Step 6)	Approved + Total deposits badhte hain	Deposit cards
Withdrawal request (Step 7)	Pending Withdrawals badhta hai	Pending card, 'N pending'
Withdrawal approve (Step 7)	Approved badhta hai, Pending ghatta hai	Withdrawal cards
Add Client (Step 4)	Clients count +1	Quick Navigation 'Clients'

Dhyan rakhein

- Dashboard ke numbers ek alag counter se chalte hain (shuruaati demo figures ke saath), isliye ye Deposit/Withdraw pages ke totals se exact match nahi karte. Client ko pages ke beech numbers compare na karwayein — badlaav (+/−) dikhayein.
- Banking Gateways card (ICICI / HDFC / UPI) fixed hai, Accounts page se linked nahi.

3 Payment Accounts (UPI / Bank + QR)

Sidebar: Accounts → Add Account, Account list

5 min

Kya dikhana hai

- **Add Account** form — type, category, limits, status.
- **QR Code Image**: file chunte hi preview aata hai; image par click karne se badi dikhti hai; **Remove** se hata sakte hain.
- Save ke baad **Account list** — KPI cards (Total, Active, Inactive, UPI), filters, QR button.
- Filters: User, A/C Name, A/C Number, **Amount Range** (Up to 10k/20k/40k), Status → **SEARCH** (Enter dabane se bhi chalta hai).

Kya bolna hai

“Aapke saare collection accounts ek jagah. Naya UPI ya bank account 30 second mein add hota hai, QR upload karte hi preview milta hai, aur Active karte hi wo deposit verification mein use hone lagta hai.”

Demo data — yahi values daalein

Field	Value	Note
Account Type	UPI	
Account Category	Standard Pool	
Is only for withdrawal?	No (Deposits & Both)	
Bank Name	BharatPe	Optional
Beneficiary Name *	**DEMO RAHUL TRADERS**	Save hone par CAPITAL mein
Account Number / UPI ID *	**demorahul@ybl**	
IFSC Code	(khaali)	UPI ke liye zaroori nahi
Min / Max Amount	100 / 25000	Max 25,000 → 'Up to 40,000' filter mein aayega
Max Deposit Amount	Both (No ceiling)	
QR Code Image	Aapki QR PNG/JPG	PNG, JPG, WEBP, GIF · max 2 MB
Status	Active (Open for deposits)	

Entry karne se kya hoga

Aap kya karte ho	Kya badalta hai	Kahan dikhega
QR file chunna	Turant preview (abhi save nahi hua)	Form mein hi
Add Account	QR server par save hota hai, phir account banta hai	Account list ki last row
Status = Active	Account deposit dropdowns mein aa jaata hai	Deposit → Instant UTR + UTR Entry forms
List mein QR button	Upload ki hui QR dikhti hai ('Uploaded QR image')	QR popup + Copy UPI ID
Status toggle (Active ↔ Inactive)	Account ka status turant badalta hai	KPI cards, deposit dropdowns (page reload par)

Dhyan rakhein

- Status toggle par confirm nahi poocha jaata — galti se kisi aur account par click na karein.
- Jis account par QR upload nahi hai, uska QR UPI ID se internet par generate hota hai — internet chalu rakhein.

4 Clients

Sidebar: Clients → Add Clients, Client List

4 min

Kya dikhana hai

- **Add Clients**: Quick Select Master Portal buttons, Master Portal, Referral Code, Username, Password.
- **Client List**: naya client sabse upar; KPI — Total Clients, Active, Cumulative Balance, Direct Signups.
- Filters: **Domain**, Username, **Start/End Date**, **Source** (Signup/Manual), Deposit Count → **Filter**; **Reset** se sab saaf.
- Har row par Statement / Deposit / Withdraw quick buttons.

Kya bolna hai

"Har site ka client yahan ek list mein hai. Domain, date ya source se turant filter kar sakte hain — jaise sirf aaj ke Mastan365 ke naye clients."

Demo data — yahi values daalein

Field	Value	Note
Master Portal *	**MASTAN365M(MASTAN365)**	Domain mastan365.com set hoga
Referral Code	ROLEX100	Optional
Username *	**DEMOCLIENT01**	Hamesha CAPITAL mein save
Password *	Koi bhi demo password	
Filter demo	Domain = MASTAN365M, Start/End = aaj ki date	DEMOCLIENT01 dikhega

Entry karne se kya hoga

Aap kya karte ho	Kya badalta hai	Kahan dikhega
Create Client Account	Client banta hai: balance 0, source Manual, deposits 0	Client List (top), Global Search
	Site ke clients +1	Site User Stats → Mastan365m 'Total Clients'
	Dashboard clients +1	Dashboard 'Clients N users'
Same username dobara	Error: username already exists	Form par message

Dhyan rakhein
- Client is panel mein login nahi kar sakta — ye sirf staff ka panel hai.

5 Global Search

Sidebar: Global search

4 min

Kya dikhana hai

- Upar 4 site cards (Mastan247, Mastan365, Mastan99, Mastanreddy) — har card par Add Client aur Filter.
- Domain + Username daal kar **SEARCH** (ya Enter). 'All Domains' se saare clients.
- Result row ka **Balance** button → Client Balance Transfer (Deposit/Credit ya Withdraw/Debit).
- Statement / Deposit / Withdraw links seedha us client ke filter ke saath khulte hain.

Kya bolna hai

"Kisi bhi site ka koi bhi client — naam daaliye, ek second mein mil jaata hai. Wahin se uska balance adjust kar sakte hain aur har adjustment ledger mein record hota hai."

Demo data — yahi values daalein

Field	Value	Note
Domain	MASTAN365M(MASTAN365)	
Username	**DEMOCLIENT01**	Step 4 wala client
Balance → Operation	+ Deposit / Credit	
Amount	**10,000**	Step 7 ke withdrawal ke liye balance chahiye

Entry karne se kya hoga

Aap kya karte ho	Kya badalta hai	Kahan dikhega
Balance credit 10,000	Balance 0 → 10,000, deposit count +1	Global Search, Client List
	Ledger mein Credit row: 'Manual balance credit by MASTAN99M'	A/C Statement
Debit zyada amount	Error: Insufficient balance	Popup par message

Dhyan rakhein
- Manual credit/debit Dashboard aur Site User Stats mein count nahi hota — wahan sirf Deposit/Withdraw approvals aate hain.
- Site cards ke Balance / P/L / Wallet figures fixed demo values hain; refresh icon se number nahi badalta.

6 Deposit & UTR

Sidebar: Deposit → Deposit List, History, UTR Entry, UTR Pending, Removed

7 min

Kya dikhana hai

- Har tab ka apna URL — tab badlo to sidebar mein wahi item highlight hota hai.
- **UTR Entry**: bank statement ka UTR pehle se register karein → **UTR Pending List** mein dikhega.
- UTR Pending List ka delete icon → UTR **Removed UTR List** mein chala jaata hai (search bhi hai).
- **Pending Deposits**: pehle se banaye gaye 2 deposits — ek **Approve**, ek **Reject**; **Proof** button se slip.
- **Deposit History**: Domain, Status, Type, Username, UTR, **Start/End Date** → SEARCH.

Kya bolna hai

"Client deposit karta hai, UTR ke saath request aati hai. Aap bank se UTR match karke ek click mein approve karte ho — client ka balance turant badh jaata hai aur ledger mein entry ho jaati hai. Har UTR ka record rehta hai, delete bhi audit ke saath."

Demo data — yahi values daalein

Field	Value	Note
UTR Entry → UTR Number *	**612345678901**	
UTR Entry → Account *	DEMO RAHUL TRADERS : demorahul@ybl	Step 3 wala account
UTR Entry → Amount *	5,000	
Remove karne ke liye UTR	612345678902 · Rs. 1,000	Pehle add karein, phir delete
Approve karein	MAYURSINH · Rs. 2,500 · UTR 612345678911	Pehle se banaya hua
Reject karein	ASHUTOSH · Rs. 1,500 · UTR 612345678912	Pehle se banaya hua
History filter	Status = Approved, Start/End = aaj	Aaj ke approvals

Entry karne se kya hoga

Aap kya karte ho	Kya badalta hai	Kahan dikhega
Add UTR Entry	UTR record PENDING status mein	UTR Pending List
UTR delete	Status REMOVED (record mitta nahi)	Removed UTR List
Approve (MAYURSINH 2,500)	Balance 22,000 → 24,500, deposit count +1	Client List, Global Search
	Ledger Credit: 'Deposit Confirmed - Ref UTR: 612345678911'	A/C Statement
	Approved deposits + Rs. 2,500	Dashboard, Site User Stats (Mastan365m)
Reject (ASHUTOSH 1,500)	Status Rejected, balance same	History, Dashboard, Site Stats
Status filter = Pending	Approve/Reject hote hi row list se hat jaati hai	Pending Deposits

Dhyan rakhein

- Agar kisi pending deposit ka UTR pehle se UTR Entry mein ho, to UTR entry 'MATCHED' ho kar Pending List se hat jaati hai — deposit phir bhi manually approve karna hota hai.
- Proof popup abhi ek sample slip dikhata hai, asli screenshot nahi.
- Approve/Reject par confirm nahi poocha jaata — sahi row par hi click karein.

7 Withdraw

Sidebar: Withdraw → Withdraw List, Withdraw History

5 min

Kya dikhana hai

- Upar KPI: Pending Payouts, Total Settled, Rejected, Settlement Rate.
- **New Withdrawal** → client, amount, bank details → Pending list mein.
- **Approve** → bank transfer ka UTR daalna zaroori → balance katta hai, ledger mein Debit.
- **Reject** → reason chunein. Stop icon = **Cancel**. History mein **Details** = settlement voucher.
- History filters: Domain, Status (Canceled bhi), Type, Username, UTR, **Start/End Date**.

Kya bolna hai

"Payout request se lekar bank transfer tak sab track hota hai. Bina UTR ke koi payout approve nahi hota, aur balance se zyada withdrawal system lene hi nahi deta."

Demo data — yahi values daalein

Field	Value	Note
Client Username *	**DEMOCLIENT01**	Balance 10,000 (Step 5)
Portal / Site	Mastan365	
Withdrawal Amount *	**3,000**	
Account Holder Name	DEMO CLIENT	
Bank Name	HDFC Bank	
Account Number *	50100123456789	
IFSC Code	HDFC0001234	
Approve → UTR *	**PAYOUT612345**	Bank transfer reference
Reject example	KAASH26 · Rs. 7,000 (pehle se pending)	Reason: Account verification pending

Entry karne se kya hoga

Aap kya karte ho	Kya badalta hai	Kahan dikhega
Create withdrawal	Pending request; balance abhi nahi katta	Pending list, KPI, Dashboard Pending
Approve with UTR	Balance 10,000 → 7,000	Client List, Global Search
	Ledger Debit: 'Withdrawal Payout Settled - UTR: PAYOUT612345'	A/C Statement
	Approved withdrawals +3,000, Pending −	Dashboard, Site User Stats
Reject with reason	Status Rejected, balance same	History, Dashboard, Site Stats
Cancel (stop icon)	Status Canceled, balance same	History (Canceled filter)
Balance se zyada amount	Error: Insufficient client balance	Popup par message

Dhyan rakhein

- Approve ke bina UTR toast aata hai 'Missing UTR' — yeh feature hai, dikhayein.
- Cancel aur Reject par confirm nahi poocha jaata.

8 A/C Statement

Sidebar: A/C Statement

3 min

Kya dikhana hai

- Har credit/debit ka ledger — date, event, amount, balance, type, D/C, description.
- Account / User aur Transaction Type filters (options data se bante hain).
- Row par click → Ledger Entry Audit popup. **Export CSV** se Excel file.

Kya bolna hai

"Har rupaye ka hisaab — kab aaya, kis UTR se, kisne approve kiya, balance kitna bacha. Audit ke liye ek click mein CSV download."

Demo data — yahi values daalein

Field	Value	Note
Account / User	**DEMOCLIENT01 (mastan365.com)**	Demo ki saari entries
Transaction Type	All Types	Phir 'Withdraw' chun kar dikhayein

Entry karne se kya hoga

Aap kya karte ho	Kya badalta hai	Kahan dikhega
Filter DEMOCLIENT01	Credit 10,000 (Step 5) + Debit 3,000 (Step 7)	Table + KPI cards
Export CSV	Filtered rows ki file download	Downloads folder

Dhyan rakhein

- 'All Accounts' par Closing Ledger kai accounts mix karta hai — ek account chun kar dikhayein.

9 Site User Stats

Sidebar: Site user stats

2 min

Kya dikhana hai

- Har site master ki row: Total Clients, Approved/Rejected Deposits, Approved/Rejected Withdrawals (amount + count).
- Start / End Date badal kar **Search** — numbers us period ke hisaab se badalte hain. Default: pichhle 7 din.

Kya bolna hai

"Kaun si site kitna business de rahi hai, kahan rejections zyada hain — kisi bhi date range ke liye."

Demo data — yahi values daalein

Field	Value	Note
Start Date / End Date	Aaj / Aaj	Sirf aaj ke demo transactions
Phir	Pichhle 7 din	Poora week

Entry karne se kya hoga

Aap kya karte ho	Kya badalta hai	Kahan dikhega
Aaj ki range	Mastan365m row: approved deposit 2,500, rejected 1,500, approved withdraw 3,000	Table + total row
Start > End date	Warning: Start date must be on or before end date	Toast

Dhyan rakhein
- Total Clients date se filter nahi hota (hamesha poori count). Pending aur Canceled entries count nahi hoti.

10 Extra Users (Operators)

Sidebar: Extra Users → Manage Users

3 min

Kya dikhana hai
- Saare staff users — role, assigned portal, status.
- **Add Operator** → naya operator; search box se dhoondhein.
- **Suspend** / **Activate** — suspend hote hi us user ka login band.

Kya bolna hai
"Aapki team ke har member ka alag login. Kisi ko hatana ho to ek click mein suspend — uska access turant band."

Demo data — yahi values daalein

Field	Value	Note
Operator Username *	**DEMOOPS01**	
Full Name *	Demo Operator	
Password *	Koi bhi (min 6 characters)	
Operator Role	Settlement Manager	
Assigned Portal	Mastan365	

Entry karne se kya hoga

Aap kya karte ho	Kya badalta hai	Kahan dikhega
Add Operator	Naya staff login ban jaata hai (2FA off)	Extra Users list
Suspend	Login band; khula session agle click par logout	Status 'Suspended'
Activate	Login wapas chalu	Status 'Active'

Dhyan rakhein
- Sirf DEMOOPS01 ko suspend karein — MASTAN99M ya admin ko nahi (koi confirm nahi poocha jaata).
- Abhi role aur portal sirf label hain — har staff user ko poora access milta hai. Client pooche to bolein: role-wise permissions next phase mein.

11 Security — Change Password

Sidebar: Change Password (aur profile menu)

1 min

Kya dikhana hai

- Current / New / Confirm password, strength meter, 2FA wale users ke liye OTP field.
- Right side mein Security Recommendations.

Kya bolna hai

“Password policy aur 2FA dono — jisse panel ka access sirf sahi logon ke paas rahe.”

Entry karne se kya hoga

Aap kya karte ho	Kya badalta hai	Kahan dikhega
Update Password	Agle login se naya password lagega	Login page
Galat current password	Error: Current password is incorrect	Form par

Dhyan rakhein

- Demo mein sirf form dikhayein, submit na karein — warna demo account ka password badal jayega.

DEMO KE BAAD

Closing aur safai

Closing line

Kya bolna hai

“Aapne dekha — ek client ka account banne se lekar uske deposit, withdrawal aur ledger tak sab ek panel se, har step par record ke saath. Kuch aur dekhna ho to abhi live dikha sakte hain.”

Client ke common sawal

Sawal	Jawab
Deposit kahan se aata hai?	Client ki site (Mastan365 etc.) se UTR ke saath request aati hai; yahan verify karke approve hota hai.
Galti se approve ho jaye to?	Approve sirf Pending par hota hai, dobara nahi hota. Har action ledger mein record hai.
Kitne staff users bana sakte hain?	Koi limit nahi; har ek ka alag login, suspend/activate ke saath.
Data ka backup?	Database server par hai; regular backup set kiya ja sakta hai.
Time IST mein hai?	Abhi times UTC mein store/dikhte hain (IST se 5:30 peeche) — IST display next update mein.

Demo ke baad ki safai (optional)

- DEMOOPS01 ko Suspend kar dein, ya rehne dein.
- DEMO RAHUL TRADERS account ko Inactive kar sakte hain (Accounts → status toggle).
- Agla demo fresh chahiye to Claude se bolein — demo entries hata kar database pehle jaisa kar dega.
