4. Network, IP & Betfair Geo-Restriction Architecture

Betfair Exchange operates under strict international gaming regulations. This section clarifies how your system handles IP routing, Windscribe VPN, and automatic offline failovers.

Scenario	Network IP State	Betfair Exchange Status	Portal Behavior & UX
1. India Direct IP (VPN OFF)	Indian Residential / Office IP (e.g. 122.176.221.20)	**403 Geo-Restricted** Betfair blocks Indian IPs	**Seamless Auto-Failover:** Portals automatically serve rich simulated fixtures, live odds, and cricket/football lines. **Zero crashes, zero blank screens.**
2. Windscribe VPN (London 1984 ON)	United Kingdom IP (London VPN Server)	**200 OK — Authenticated** Direct Betfair API session	**Real-time Betfair Live Feed:** Genuine UK exchange odds, in-play match scores, bookmaker & fancy markets updated every second.
3. Production Cloud (UK/EU Proxy)	Dedicated UK/Germany Proxy or VPS (Configured in BETFAIR_PROXY)	**Whitelisted Static IP** High performance dedicated connection	**Production Grade:** Uninterrupted live exchange feed without relying on client-side desktop VPN applications.

5. Domain Portals & Multi-Brand Isolation Matrix

The system simultaneously hosts 4 distinct betting domains, maintaining complete database isolation while sharing Rolex Admin master settlement:

Portal Brand	Domain Host	Master Account	Password	Portal Chips (■)	Status
Mastan365	mastan365.com	**MASTAN365M**	master123	2,338,040.90	**ACTIVE**
